

GAGE REPAIR AND CERTIFICATION TRAINING

Cincinnati Precision offers the only “hands-on” training course for minor gage repair and certification of its kind. It consists of a three day intensive course on proper calibration techniques on various types of gages: such as dial, digital and test indicators, calipers, O.D., I.D. and depth micrometers, length standards, hole mics, bore gages, etc.

Participants bring gages representative of those that they certify on a daily basis and all class members learn proper calibration techniques from each other as well as from the instructor.

COST: \$1,250.00 **PER PERSON**
Price includes materials, and a completion certificate.

WHERE: All classes are held in our training facility in Cincinnati.

RESERVATIONS: Class size is limited to six participants. We encourage you to register quickly by calling **Rick Moore at 1-800-686-3730**, **faxing him at (513) 874-2536** or **email rmoore@cpi1stop.com** with a purchase order stating participant's name.

CPI reserves the right to reschedule the seminar dates if a minimum of three participants are not registered for any class.

Full registration fee will be refunded **IF WRITTEN NOTICE IS RECEIVED** (VIA FAX OR MAIL) One week prior of the scheduled class.

NEXT CLASS: March 9, 10 and 11, 2010
