

SJ-411 Promotion

Sale Price: \$6,200
Limited Quantities Available

List: \$7,790.00

FEATURES:

- Both skidded and skidless measurements are possible with this series. Equipped with roughness, waviness, and profile parameters.
- Supports ISO, DIN, ANSI, and JIS standards.
- A wide-range, high-resolution detector and drive unit provide superior high-accuracy measurements.
- Capable of outputting data via USB, RS-232, and SPC ports.
- Dual profiles can be measured simultaneously.
- Optional column stand provides easy measurement setup and increased operability.
